ABOUT DOCTRINE VOLUME I

Doctrine - Volume I.

The foundations of Saeculum Leadership®.

Doctrine – Volume I examines leadership as a responsibility carried across generations. It establishes the foundations of Inheritance, Stewardship and Legacy – and asks what leaders must preserve, strengthen and transfer when history turns.

For much of the post-war era, leaders could shape perception through messaging in a world where information moved more slowly and access was more easily controlled. That environment has changed. In an era of acceleration, leadership behaviour is increasingly visible, recorded and open to scrutiny. The gap between what leaders say and what they do is harder to contain – and its consequences are harder to escape.
